TOOLS ENGINEERING EXPERTISE

ENGINEERING

Dinosaw - Frezite's production is carried out by a team of highly skilled, qualified professionals, using the most recent IT for both the design and the manufacturing of its products.

Dinosaw-Frezite has a modern industrial layout, with high technology CNC machines, that will ensure the most demanding requirements in both its production and re-sharpening.

Our Polycrystalline Diamond Tools are made with the latest generation machines to guarantee the highest performance.

PRECISION

At Dinosaw-Frezite we use only state-of-the-art machinery for servicing your Polycrystalline Diamond Tools, guaranteed to meet the accuracy you need.

RELIABILITY

When buying a Dinosaw-Frezite product, you are acquiring not only a tool, but also our guarantee for long lasting performance.

QUALITY

Quality in all our products, together with the feedback from our customers, is what makes us one of the best companies in our sector. It's our daily challenge and desire to continue to improve.

SAFETY

Our priority: Safety. All our tools are in accordance with the European standard EN 847.

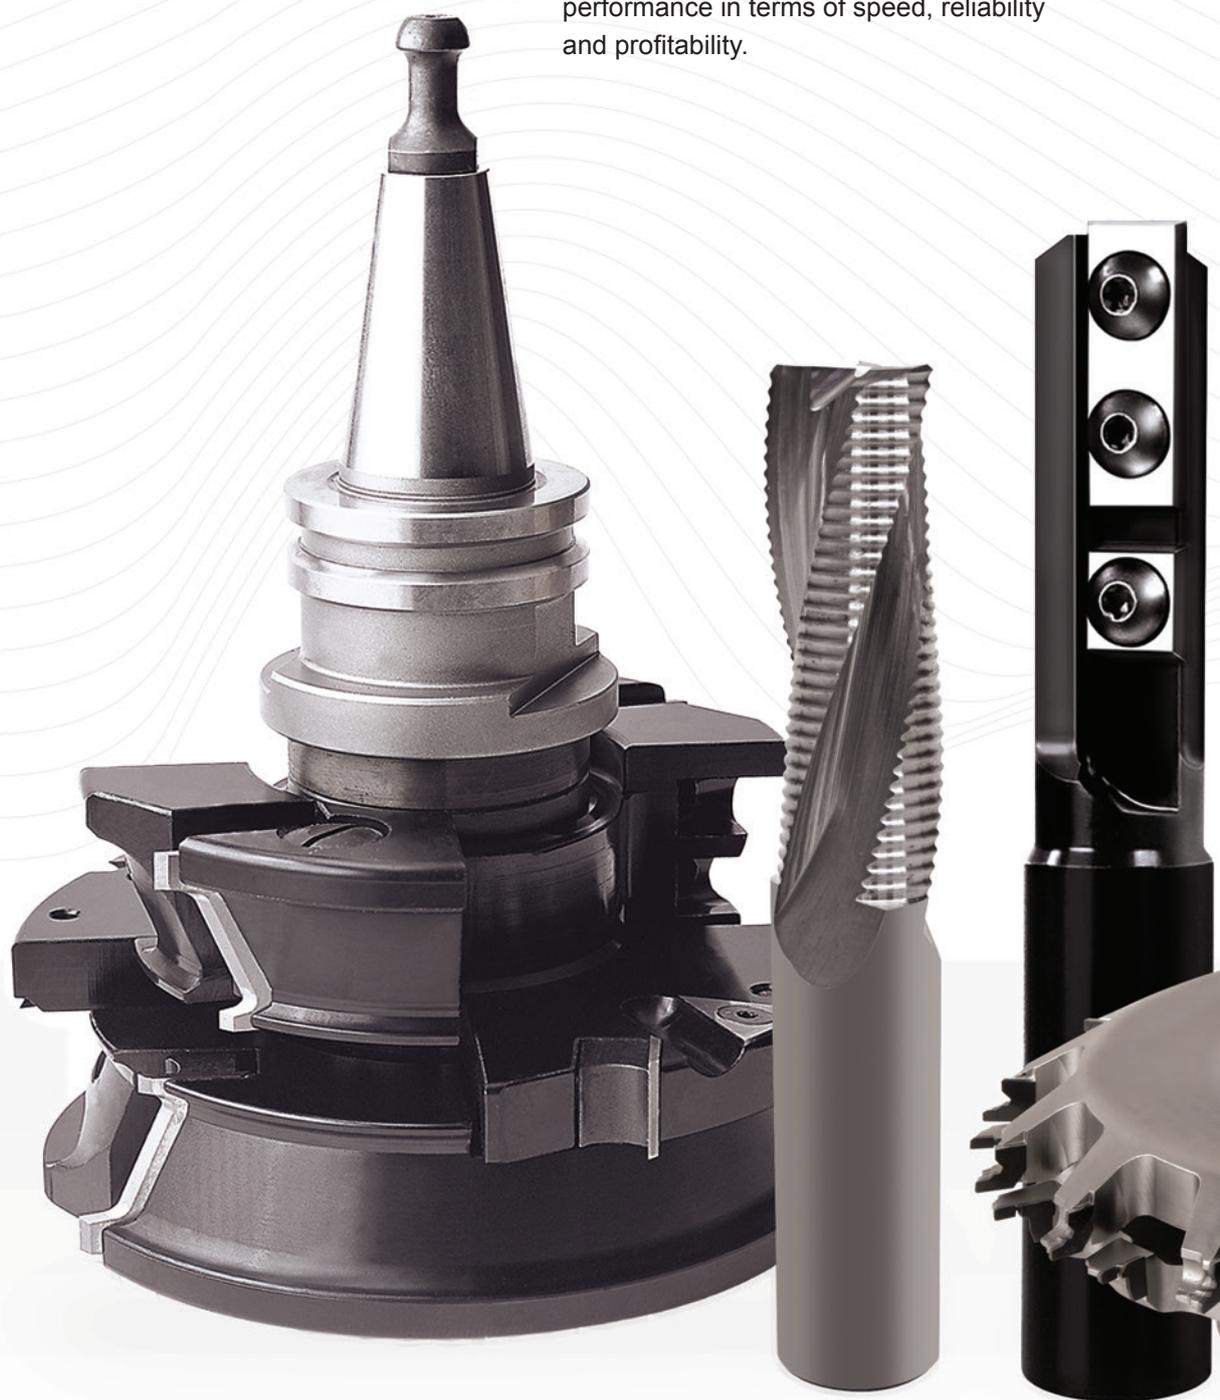

To ensure you get the product you want together with the quality and safety standard you deserve, every tool is checked by our Quality Control Department before delivery.

The key to the Dinosaw - Frezite system is flexibility. Both management and technicians are focused on finding the perfect solution for your company.

The design of a new product involves teamwork that starts with the first contact with the customer and continues through our after-sales assistance. At Dinosaw we look for a better understanding of the markets and strive to develop new solutions with new products.

CNC

Tooling systems to work on CNC machines that guarantee the highest performance in terms of speed, reliability and profitability.

PCD

Tooling with Polycrystalline Diamond cutting edges, with extreme wear-resistant properties, developed specifically to work on abrasive materials.

INSERT

Dinosaw-Frezite offers the best range of insert tooling solutions, from the most simple machine to the most complex factory layout.

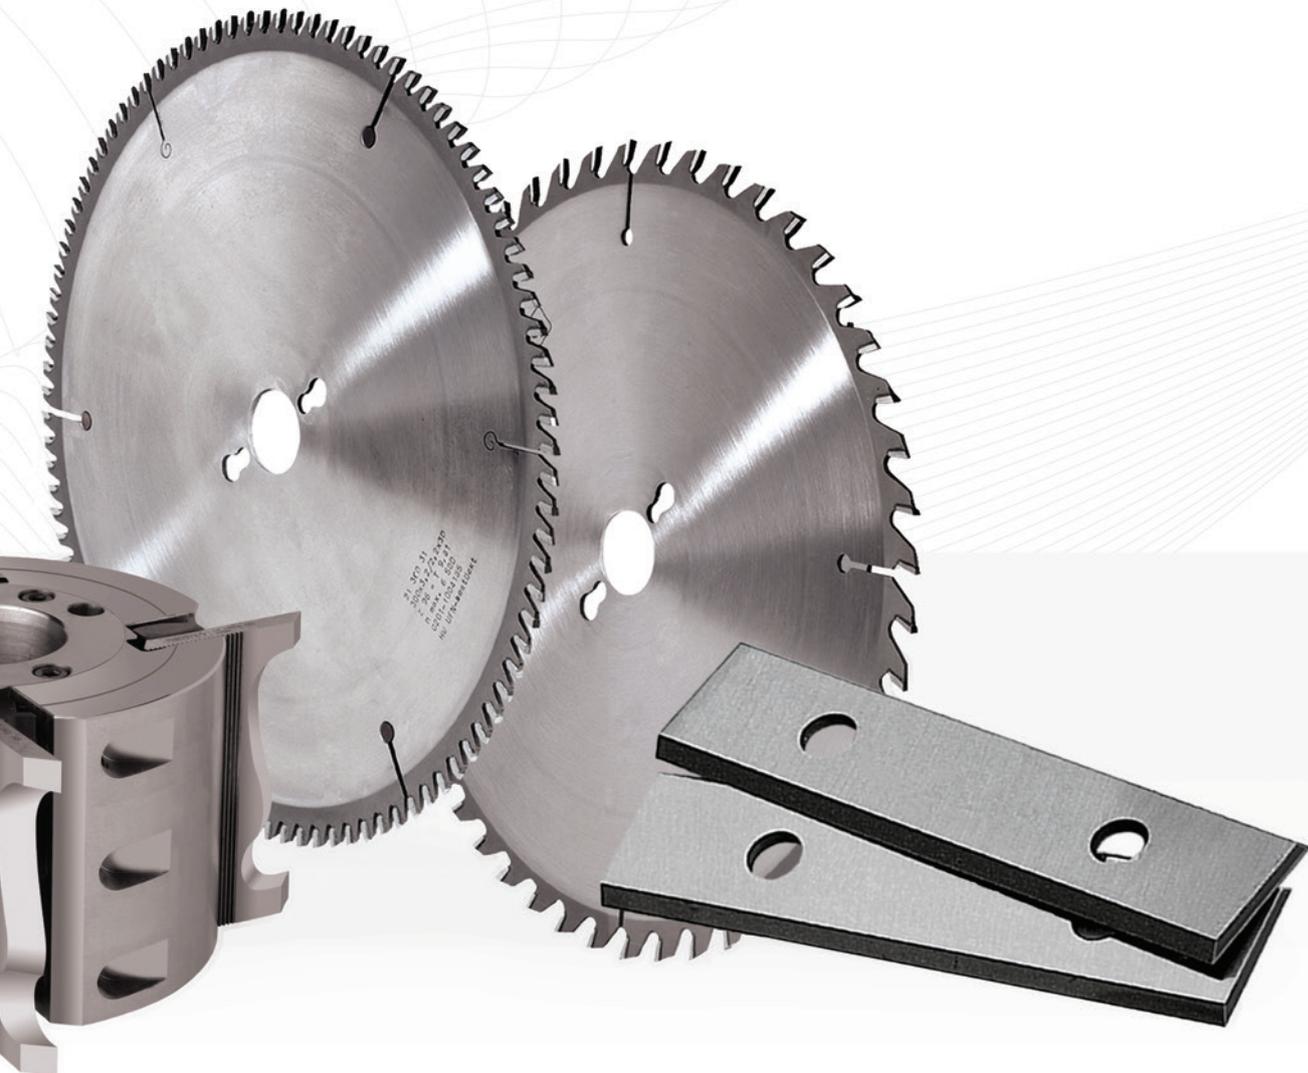

Dinosaw-Frezite Tooling
